Feinrohren Group

Feinrohren SpA manufactures ultra-high quality copper capillary tubing and copper pipe designed to meet any application requirements.

As a global leader in the production of copper tubular products, Feinrohren supplies products to the Industrial, Medical, Water Sanitation, and HVAC/R markets.

PT

In the rapidly evolving HVAC-R industry, PTubes Inc. (doing business as "PT") is a fully integrated company producing the high-performance RYNO® and RYNO+® line sets.

Headquartered in Waymart, Pennsylvania, PT brings over 60 years of expertise in copper tubing to the forefront of sustainable HVAC solutions.

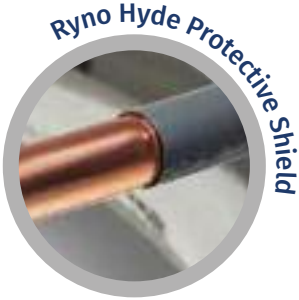

In response to increasing demand for energy-efficient systems and with a strong focus on energy efficiency, environmental sustainability, and advanced insulation technology, PT transforms how line sets are produced, installed, and maintained.

RYNO® LINESETS

HIGH-PERFORMANCE TEAR-RESISTANT JACKET WITH **RYNO HYDE** PROTECTIVE SHIELD.

PT's RYNO line sets reduce energy losses caused by air gaps between the copper tubing and insulation by tightly controlling every aspect of manufacturing. This attention to detail eliminates the gap and enhances thermal efficiency.

A rugged outer jacket provides additional protection for the line set, increasing both durability and performance. Resulting in faster installations without rips and tears.

PROUDLY MADE IN PENNSYLVANIA

The only line set in the world with RYNO HYDE, a super durable, protective layer that shields the copper from environmental contamination.

RYNO LINE SETS

Now with RYNO HYDE: the extra layer of protection.

Super soft, no kink.

All sizes tested and rated up to 700 psi.

Fully compatible with all fitting types (including press fittings).

Suitable for use with all refrigerants including A2L

Industry-leading 10-year limited warranty on the copper tube.

- The Toughest Jacket
- Weather Resistant
- Top Rated UL 723
- UV Resistant
- Kink Resistant
- Anti Corrosion
- Tear Resistant

RYNO Tech Specs

RYNO®+ LINESETS

ULTIMATE **OUTDOOR PROTECTION** AND CODE-COMPLIANT SINGLE STEP INSTALL.

PT's latest innovation features the cutting-edge **RYNO+** elastomeric insulation, designed with tear-resistant and UV-resistant jacket technology.

Elevate your installations with the rugged protection of our new jacket, delivering exceptional durability against the elements. Plus, enjoy peace of mind with our 10-year copper and 5-year RYNO+ Jacket warranty.

PROUDLY DESIGNED AND MADE IN USA

Reduce installation time and cost with RYNO+. No additional UV cover needed* thanks to a robust, nearly impenetrable jacket.

RYNO+ LINE SETS

No field-applied cover required.*

Super soft, no kink.

All sizes tested and rated up to 700 psi.

Fully compatible with all fitting types (including press fittings).

Suitable for use with all refrigerants including A2L

Industry-leading 10-year limited warranty on the copper tube and 5-years on the RYNO+ jacket.

* Subject to state and local codes

- The Toughest Jacket
- Weather Resistant
- Top Rated UL 723
- Extra UV Resistant
- Kink Resistant
- Anti Corrosion
- Tear Resistant
